

To: Whomever it may concern

From: George Cowart
Office Manager
First Administrative Judicial Region

Subject: Lonnie Lehman

I have known Lonnie since early 2001. He had been recommended to me as a computer tech. The day I called him has been one of the best business decisions I have every made. He has proven to be a very smart, qualified tech; knowledgeable about almost all facets of the computer industry. However, the most valuable asset Lonnie has is honesty and dependability. Lonnie has never promised or stated that he could or would do something and not delivered. I have come to rely on him as if he was an extension of my department. If not for him, I would still be working long hours rather than being recognized as the most progressive Judicial Region in the State.

I have in the past recommended Lonnie to both Judges I work with and friends and will continue to do so. He has never disappointed me or my colleagues. If anyone wishes to discuss this matter further, please do not hesitate to contact me in person. My numbers are below.
